

December 9, 2021

For Immediate Release:

Ideal Energy Solutions and RPR Heating and Air Conditioning are excited to announce that as of January 1, 2022 they will be under one umbrella. The merged company will operate as RPR Heating and Air Conditioning LTD. and keep the fresh look and branding of Ideal Energy Solutions.

The clientele of both businesses will continue to experience the same high-quality service, and new areas will begin to benefit from the growth.

"We've been wanting to expand outside of the area and the first order of business in this partnership is to open an office in Princeton and serve the wonderful people of the Similkameen. Princeton and area has been through so much recently and we want to be there to support them" said Terry Olfert, Co-owner of RPR.

One value that has brought these two companies together? Giving back to the community. To celebrate the new partnership RPR is giving away Holiday turkey dinners.

"On December 18th of this year we're giving out 200 turkeys and everything you need for a delicious family meal, in both Penticton and Princeton." Says Steve Dahl, Co-owner of RPR (previously Ideal).

The Penticton giveaway will be at the current Ideal Energy office from 10am to noon for 100 families in need of great Christmas meal. "Then we'll head up to our new office in Princeton Santa-style to hand out turkey dinners for another 100 families in need of great Christmas meal.

For more information on the Turkey Dinner Giveaway you can visit www.rprheating.com for a full breakdown of details.

Both Steve Dahl and Terry Olfert assure customers that all scheduled appointments and services will go ahead with the same friendly faces they have come to know and trust.

The new company will be releasing more details in the new year once the merger becomes official.
